Phones drive the highest sales, but **Chairs** and **Storage** are also strong contributors.

Tables and **Bookcases** have good sales but relatively lower profit — indicating margin issues.

Discounts over **20%** often correlate with **negative profits** — aggressive discounting is hurting revenue.

Sales peaked early in the data (2014–2015) and trended down slightly over time — **potential saturation** or **seasonal factors**.

Machines and **Labels** consistently show losses — candidates for product phase-out or pricing strategy change.
